About Bebek Coin

The Origin of BEBEK

In the lush green rice fields of Indonesia, where the sun always shines and the weather is warm, there lived a duck unlike any other. This duck had a unique, cool style that made him stand out from the flock. He loved playing in the water, wandering through the fields, and enjoying time with friends. But one day, everything changed when their land was destroyed.

Refusing to give up, this special duck rallied the others with his inspiring words: "We must not give up! Our land may be gone, but our spirit remains unbroken. Let's come together and create a new home where we can thrive." With his vision leading the way, the ducks followed him to the ICP blockchain, beginning a new chapter as the Duck Army.

The BEBEK Philosophy

All about community, resilience, and collaboration.

We believe that by sticking together, supporting one another, and moving as one, we can overcome any obstacle. The Duck Army has built a strong, united community on the ICP blockchain, a place where every duck matters and every quack is heard. Here, we thrive on the power of togetherness and the joy of shared success.

BEBEK Mission and Vision

Our mission is simple: take BEBEK Coin to the moon!

BEBEK Coin is more than just a cryptocurrency; it's a symbol of our dreams and aspirations. It represents our journey from a shattered past to a vibrant, thriving future.

With BEBEK Coin, we aim to create prosperity, inspire innovation, and bring joy to our community. Our vision is to see BEBEK Coin shine brightly on the moon, a beacon of hope and unity for ducks everywhere. Join us on this extraordinary journey and let's quack our way to the moon together.

Roadmap

Our roadmap is simple and straightforward:

1. The Journey Begins: We start with the exciting announcement that the Duck Army is launching Bebek Coin, setting the stage for what's to come.

2. Rally the Community: We kick things off by uniting the community, having fun, and building hype while you earn your airdrops.

3. Launch and Airdrop: Once the community is pumped, we launch ICPepe and distribute the airdrops. Then, it's time to enjoy the gains.

4. Post-Launch Development: If there's strong community support, we'll continue developing BebekCoin. This includes implementing a farming mechanism to earn the rest of the tokens. This step is entirely dependent on the community.

5. Future Possibilities: With community engagement, the sky's the limit, or rather, the moooon!
